INSTRUCTIONS TO AGENTS.

Now this is the chance for our people to make big money by selling the HERALD, but if you would like to sell this paper or continue in our service, you must abide by the following rules.

1st: You must not sell the papers on credit unless you intend to pay for them out of your own pocket.

2nd: You must remit every week, as it is just as easy to remit weekly as it is to wait for the end of the month, and in case you fail to do this, we will be compelled to drop you from our agents list as we can't afford to carry any dead heads, and heap expense upon us.

3rd: You must cut out the date lines of every paper you have on hand unsold, and send them into us, and we will credit you up with them, and in case you fail to do this, we will charge you up with the full amount.

4th: You must get your orders into us by Saturday's, as we start out our agents packages on Mondays.

5th: After you will have sent in the date lines and remittance due us, you can then dispose, with the old papers as you choose.

6th: You must send all money amounting to and over 50 cts by Money order, registered letter or postal note, and not by stamps, as we will return them.

7th: You will be required to pay 24 cts per copy for our paper, and can sell as many as you choose.

8th: Send us in no credit subscriptions, as we will not insert their names on our subscription list.

9th: When you fail to comply with the above rules, you may expect your name to be dropped from our agents list, and the public will be notified through our paper.

SAY MISTER!

Do you read?

Does any one of your family read?

Are you inclined to foster race institutions?

Don't you want to know of the doings of your people elsewhere?

Wouldn't you like to hear a true, impartial and unprejudiced report when you do hear?

Wouldn't you like to read a paper that credits the Negroes with what they do?

Wouldn't you like to read a paper that doesn't delight in showing up the bad deeds laid at the feet of our people and leaving the good ones lay dormant?

Would you like to keep up with the lynching, whipping, burning at the stake and out rages brutally heaped upon our law abiding citizens?

Would you like to inspire the intellectuality of your off springs, and crown their heads with wisdom?

Would you like to train them to perfect their wonderful conceptions by having them read good race literature and acquaint themselves with the characteristics of our great Negroes?

Would you like to combine your efforts and help to establish business for the employment of your sons and daughters?

If you have an interest in your children and the race and imbued with the propensities named above, you will send us 8 Yearly subscribers and obtain a copy for yourself One Year free, or send 3 names and obtain the paper One Year for \$1.25 each, to R. Emmett Stewart, Ed. and Bus. Man'g'r of THE HERALD Langston City, Okla.

DONT MISS OUR OFFER.

Notice Agents. We would be glad to have the news of your city brought to us in the office by Wednesday, and let it be brief and spicy.

Do not be afraid to ask your Post Master to look for your paper because many times the paper is in the office and the post-master don't feel like getting up and looking for it.

You should Subscribe for this paper and get the true reports of current events.

As a general thing, a cheap article is invaluable, but in this instance of the Herald's great reduction that rule ceases to act. This reduction is offered in behalf of the poor people who contemplate immigrating to Oklahoma and make a run in the coming opening for a free home. So subscribe at once.

WE don't carry any dead-heads or Credit list, so we hope our agents will bear this fact in mind and don't send us subscribers unless those conditions, for they will certainly hit the scrap basket upon their arrival here.

We do not claim to be the greatest Negro journal published in America but we do claim our rank among the most wide-awake and race developing papers now before the public. Send us your name and we will send you a sample copy.
